ANTI-CORROSION

## VCI STEEL WRAP

VCI Steel Wrap woven films are especially designed for the steel industry to protect flat and coiled steel, steel wire, and more against corrosion with superior strength and tear resistance. As an excellent packaging solution for shipping and storage of large machinery, our films are impregnated in low temperature with vapor corrosion inhibitors (VCIs) to protect ferrous and most non-ferrous metals from corrosion.

### FEATURES & BENEFITS

- Self-healing
- Tear resistant
- Slow release vapor action protects the exterior as well as hard-to-reach interior surfaces
- Long-term 24-month corrosion protection for storage and overseas shipments
- Metals protected: Carbon steels, stainless steels, copper, brass, aluminum, galvanized steel
