

# HMF

## HAND MASKING FILM

### DESCRIPTION

Stain resistant, temperature resistant, static treated HDPE film that 'clings' to surfaces for secure protection. Hand-Mask provides the flexibility and bleed through resistance of film yet holds paint and gel-coat like paper. Prevents overspray and resists paint 'flaking'. The top edge is reinforced to allow for easy dispensing / positioning of the film without tearing before extending the folded film to the desired length.

### PRODUCT APPLICATION

Dispense and apply to surface. Once in place, pull on film drape to extend to desired length until surfaces are protected.

# INTERTAPE POLYMER GROUP® TECHNICAL DATA SHEET

### NOMINAL VALUES

The following data are nominal values based on PSTC, ASTM and other standard tests. The data should not be considered as specifications.

|                  |                                |
