

POWDER COATING

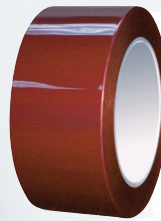

tapes that get the JOB DONE

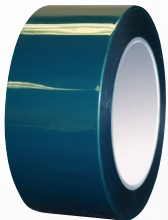

6120 BLUE

- 1 mil conformable, flexible PET backing with silicone adhesive
- 356°F temperature resistance
- High solvent and chemical resistance
- Adheres to difficult surfaces and removes cleanly

6130 RED

- 1 mil conformable, flexible PET backing with silicone adhesive
- 356°F temperature resistance
- High solvent and chemical resistance
- Adheres to difficult surfaces and removes cleanly

6215 GREEN

- 2 mil conformable, flexible PET backing with silicone adhesive
- 356°F temperature resistance
- High solvent and chemical resistance
- Adheres to difficult surfaces and removes cleanly

4429

- 2 mil extra strength puncture resistant polyimide backing
- Silicone adhesive offers outstanding thermal resistance
- Best option for applications where flame retardance is required
- Meets UL-150

RG48

- 5 mil glass cloth tape with silicone adhesive
- 500°F temperature resistance
- High tensile and dimensional stability
- Ideal for masking and protecting sensitive areas
